adepojutimilehin7@gmail.com

## Summary

A seasoned digital product designer with a patented design approach to user experience design who is confident in accepting challenges. I am highly skilled in solving complex problems with creative thinking to provide deliberate solutions that brings high commercial value.

## Work Experience

### Product Design Fellow
Jan. 2022 - Present

The Bulb Africa

- Worked closely with other fellows to create user centric, pixel-perfect and accessible user experiences on the in-house projects.
- Led the design for the product design track first project. A mobile application that allows people buy quality second hand clothes from the comfort of their home.
- Designed an examination portal interface for subsequent cohorts coming into the fellowship program.
- Conducted user research, created user flows, came up with personas, wireframes and presented a case study.
- Delivered on projects and assignments and was championed fellow of the month for the month of April.

### Freelance Designer
Oct. 2021 - Jan. 2022

Independent

- Redesigned the onboarding process  and homepage of Vbank mobile application in order to help improve the user experience.
- Designed a mobile application that promotes and encourage tourism within the country (Nigeria) as my capstone project.
- Conducted user research, created user flow, created low-fi and hi-fi wireframes and presented a case study.
